## CONDITIONS OF SALE

Our stock is well rooted, well grown, correctly dug and in perfect growing condition when it leaves the nursery. All of our stock is freshly dug and not from storage. We will replace, **at one half the price paid**, any plant that fails to leaf out by the following July. The customer will assume the delivery charge and planting cost. Should we not have the same plant in stock, we reserve the right to substitute a plant of equal value.

**The above guarantee is valid only if account has been paid in full within thirty days.**

We do not guarantee plants transplanted on a customer's property. Since we lose control of the plant once it has left our nursery, we feel that the customer should assume part of the responsibility of its growing inasmuch as proper care will largely determine its growth.

## NOT GUARANTEED

We do not guarantee Azaleas, Dogwood Trees, Rhododendron, Magnolia, Hemlock and Cherry Trees because of the greater risk in transplanting.

## UNCONDITIONAL GUARANTEE

A Certificate of **UNCONDITIONAL GUARANTEE for one year from date of purchase** will be issued upon payment of an additional 10% of the cost of the plants. This Guarantee shall cover all nursery stock and include hemlocks, azaleas, magnolias, rhododendrons, sweet cherry trees, dogwoods, etc., that ordinarily are not guaranteed, because of the greater risk in transplanting.

Because of existing conditions the prices listed here are subject to change without notice.

## OUR AIM

Since our beginning, back in 1927, we have endeavored to conduct our business in such a manner as to enhance the standing of our vocation;

To deal fairly and justly with our customers and condemn all forms of practices which stand to discredit the nursery and landscaping profession or injure its public relations;

To strive constantly to improve our qualifications and proficiency in the industry and thereby merit the approbation and esteem of others.

## PROPER PLANNING GIVES YOU:

More enjoyment . . . more comfort . . . more beauty . . .  
greater efficiency in the use of your space . . . greater economy  
in construction and planting . . . easier maintenance and  
increased property values.

## OUR SERVICES:

Our Landscape Architectural and Engineering department is recognized throughout the area for its ability to create designs and layouts which incorporate the desires of our clients into a planting that enhances and sets off the inherent beauty of a particular site.

Further, our Landscape Construction department has the trained men and equipment necessary to execute and create the finished product.

## A Variety of the Services We Render:

## EVERGREENS, SHRUBS, TREES AND VINES

The following Shrubs, Evergreens and Trees are growing here under climatic and soil conditions like those in your own yard and near enough to you so that they hardly notice being transplanted.

This large variety of planting material will enable you to create a planting that is distinctive.

Prices are consistent with better grown plants. In many cases plants have a large ball of earth about their roots to insure continued vigorous growth.

Roses, Fruit Trees, Perennials, Annuals, Garden Equipment and Supplies are listed separately. (See Index.)

Letters in ( ) indicate location in the nursery; (SY) located in the Sales Yard; (Fr.) located in frames or beds. (BB) means plant dug with a ball of soil and held secure by burlap. Where plants are wanted BB and are not so marked, please refer to the schedule on page 7.

# *Trees* MAKE YOUR HOUSE A HOME

Trees add to the value of your home. They soften the outlines of your house and add character and an air of permanence. The shade they provide gives a comfortable and inviting look to your grounds.

COME TO THE NURSERY AND LET US HELP YOU PLAN AND  
SELECT THE PROPER TREES FOR YOUR PARTICULAR NEEDS

# LARGE SHADE TREES

"A GIFT OF BEAUTY FOR THE FUTURE OF AMERICA"

Most of these trees are grown in our own nursery and may be selected and labeled when purchased.

Prices quoted include planting with a suitable size ball of earth, guying, wrapping and the following guarantee:

If a tree fails to leaf out during the second year after planting, we will replace at one half the purchase price.

These prices are subject to change, depending on conditions at planting area and distance from nursery. Letters in ( ) indicate location in nursery.

Soapwort . . . . .	Saponaria		

\*Indicates—will also stand shade

These are all hardy plants. If given reasonable care, they should bloom to your greatest satisfaction and live for many years. All of our perennials are either dug with a large clump of earth or as potted plants to reduce almost entirely the shock of transplanting.
